

Confide In Me

Donald Fagen

After the crash
When you're strolling through the ruins alone
Pick up the phone
When you feel twisted
Honey, I'm listed
Confide in me
Confide in me

Got no degree
But I'm strong on tears and careless hearts
Brave new starts
You know I'm a big fan
I got a program
If you'll just confide in me

We'll sit in my kitchen, babe
We'll drink lots of coffee, babe
We'll begin just where you left off
And you can tell
How high you flew
And how you fell
And I'll make your landing soft

My place is cute
And it's kind of comfortable
In a storm
Safe and warm
We'll throw open the nighttime
And let in the sunshine
If you'll just confide in me

We'll sit in my kitchen, babe
We'll drink lots of coffee, babe
We'll begin just where you left off
And you can tell
How you flew
And how you fell
And I'll make your landing soft

My place is cute
And it's kind of comfortable
In a storm
Safe and warm
We'll throw open the nighttime
And let in the sunshine
If you'll just confide in me
If you'll just confide in me

I'm strong
On careless hearts
I'm strong
On brave new starts
Confide in me
I'll hold your hand
Confide in me
I'll understand
You say you've slipped

Made a mistake
Confide in me
For goodness sake
