

# Snowbound

Donald Fagen

At Nervous Time  
We roll downtown  
We've got scenes to crash  
We're gonna trick and trash  
We're gonna find some fun  
We hit the street  
With visors down  
With our thermasuits  
Sealed up tight  
We can beat the freeze  
And get saved tonight  
Let's stop off at the Metroplex  
That little dancer's got some style  
Yes she's the one I'll be waiting for  
At the stage door

Snowbound  
Let's sleep in today  
Wake me up  
When the wolves come out to play  
Heat up  
These white nights  
We're gonna turn this town  
Into a city of lights

We take the tube  
To Club Hi Ho  
It's about deadspace  
It's a marketplace  
And a party house too  
Something new  
From Charlie Tokyo  
It's a kind of pyramid  
With a human heart  
Beating in an ion grid  
A critic grabs us  
And says without a smile  
The work seduces us with light  
Eviva laughs and we step out  
Into the blue-white night

We sail our icecats on the frozen river  
Some loser fires off a flare, amen  
For seven seconds it's like Christmas day  
And then it's dark again  
And then it's dark again
