

# Rewritten

Donald Lawrence

It was meant for evil  
But God has turned it around for your good  
That it may accomplish you and set forth your purpose  
He is the author and finisher of your fate  
The God of the rewrite  
May these lyrics bless you

What was meant to hurt you  
Hurt you  
Helped you  
What was meant to shake you  
What was meant to shake you  
Accomplished you  
What was meant to wake you  
God used it to make you  
You've been rewritten  
Rewritten by the King  
You've been rewritten by the King, listen

You know you can't control events  
You can't control  
That life may bring  
Events life bring  
But you can control how you respond  
But you can control how you respond to them  
No, you can't move on to the next chapter of your life  
You can't move on to the next chapter  
If you keep rereading chapters past, oh-oh-oh-oh  
If you keep rereading all the chapters past

What was meant to hurt you helped you  
Oh-oh, it helped you  
What was meant to shake you accomplished you  
It accomplished you  
What was meant to  
What was meant to wake you, God used it to make you  
You've been rewritten  
You've been rewritten  
Rewritten by the King  
If you want Him to rewrite your story, say this

I'm available for change  
My life rearranged, oh-oh  
You can write my story again, ooh  
Juene, say it for me one time  
I'm available for change  
Change  
My life rearranged  
Yes, sir  
You can write my story again  
Alright, Tri-City, here we go

I'm available for change  
I'm available for change  
My life rearranged  
I'm willing to let you do what you wanna do  
Write my story

You can write my story again  
Been hurt, been broken, been bruised  
I'm available for change  
But here I go  
I will listen to you  
My life rearranged  
You can write my story again  
You can write my story again

I'm an open book for you Jesus  
I'm available for change  
I'm available  
My life rearranged  
Change me Jesus  
Make the pain purpose  
You can write my story again  
You can write my story  
Write again Jesus

I'm available for change  
It's all a part of my destiny  
My life rearranged  
And my future is secure in You  
Write it all over again  
You can write my story again  
Ah-ah-ah, it was necessary

Write my story again  
Every tear, every heartache  
Every tear and heartache  
You can work it for my good  
Write my story again  
You can write it over again  
You can

It ain't over  
It ain't over, it ain't over  
It ain't over  
You can do it over again  
Write my story again  
Been through Heaven, Hell, ah  
You see, but I'm still here

Write my story again  
Take your pen Jesus, write it over again  
Write my story again  
'Cause you're the God of the rewrite  
You're the God of the rewrite

Ooh-ooh-ooh...  
What was meant to break you, God used it to make you  
I'm ready to move on to the next chapter of my life  
God take your pen and rewrite my story  
You've been rewritten  
Hey  
Rewritten by the King  
Thank you Lord for the rewrite
