Come Together

Donavon Frankenreiter

Heartache and pain and misery, lately in the world that's all I
  see
And all that stuff's being going on way too long
When we're gonna learn from the past?
Why don't we just all get along?

You know that we should be together, maybe forever
We don't need no enemies
I said we gotta get together, maybe forever
Maybe for

And I just don't know which way it's gonna go
Up above, side ways or right way, we would never know
And I find myself talking about it with my friends
They're saying when is it gonna happen so we can all stop to pr
etend

Because we should be together, maybe forever
We don't need no tragedy
I said we gotta get together, maybe forever
Maybe for, ever and ever

We know that we should be together, maybe forever
We don't need no enemies
I said we gotta get together, maybe forever
We don't need no tragedy

I said we gotta get together, maybe forever
Ahh, when are we all just gonna try?
Try to believe we can come together, maybe forever
And maybe for, ever and ever
