

Like the Sun

Donavon Frankenreiter

Well you wake me
With your kiss of life

It's overhead
Not a cloud in sight

Well you warm me
Like no one else

Like nothing does
Like the sun

That warm me in the morning
Warm me in the morning
Warm me in the morning

And you heal me
With your touch again

Like a summer day
That never ends

And you know me
Like no one else

Like no one does
Like the sun

That warm me in the morning
Warm me in the morning
Warm me in the morning
Warm me in the morning

And you're the one
My world spins around

And you're the one
Lifts me off the ground

Alright

Well you hold me
Like no one else

Like no one can
Like the sun

That warm me in the morning
Warm me in the morning
Warm me in the morning
Warm me in the morning

You're the one
My world spins around

And you're the one
Lifts me off the ground

And you're the one
My world spins around
Like the sun

You're like the sun
Like the sun
Like the sun
Like the sun, yeah

It's like the sun
You're like the sun, yeah
Like the sun, yeah
Just like the sun
