

Listen to the Ocean

Donavon Frankenreiter

Well, I'm stuck in the middle, here we go again
Never thought you'd need more than a friend
More than a friend
Whatever it takes, till the end
Can never break, we cannot pretend
That you need our love
That you need our love

We're here for you, don't doubt it
And the world's gonna know
Cause we're gonna shout it
That you need our love
And we're here for you, don't doubt it
And the world's gonna know
Cause we're gonna shout it
That you need our love, hmm
Need our love (Ocean)

We're gonna hold you close, till you're clean
So we can swim right through your heart and in between
You open our arms (You open up)
You open our arms
Everything you hide has been revealed
By the moment of the tide and we know it's real
That you need our love

We're here for you, don't doubt it
And the world's gonna know
Cause we're gonna shout it
That you need our love
That you need our love
That you need our love
We're here for you, don't doubt it
And the world's gonna know
Cause we're gonna shout it
That you need our love
That you need our love
Need our love

Listen to the ocean...
