

# Move by Yourself

Donavon Frankenreiter

I remember those times  
When they said I couldn't make it  
I told them I couldn't just do what they wanted and fake it

They said they'd be shocked if I could find another place to go  
And you know they said if I left I'd just be all left alone  
And then a friend said

Don't stop doing what you believe in  
Don't let them put you on a shelf  
You've got to move by yourself, move by yourself tonight  
You've got to move by yourself, move by yourself tonight

Sometimes they can't forget  
Forget just what you've got  
But don't ever be no, no  
Somebody that you're not  
When there's a choice you've got to make  
Do what you feel, don't hesitate  
You know I will never, never forget what a friend said  
His words keep ringing in my head  
He said

Don't stop doing what you believe in  
Don't let them put you on a shelf  
You've got to move by yourself, move by yourself tonight  
You've got to move by yourself, move by yourself tonight  
I said you've got to move by yourself, move by yourself tonight  
You've got to move by yourself, move by yourself tonight  
Oh move on, move on baby

Move by yourself, move by yourself tonight  
You've got to move by yourself, move by yourself tonight  
You've got to move by yourself, move by yourself tonight  
You've got to move by yourself, move by yourself tonight
