

The Ones in Your Dreams

Donavon Frankenreiter

Oh mamma can you tell me there's a hoes talk
Oh mamma can you tell me what it says
I remember when I was a young boy
I tell you about all the voices flows above my head

I won't forget you know those words you said
Better fly somelike before your dead
But if you don't, don't worst it on
I come around, I be the one
To remind you, to tell you

Don't look away from the things we can not see
The dark is the lightest place you really wanna be
So if you get lost, try to find your way home
There're the one in your dreams keeping you from being alone

You know I'm never really want to more away
But neverbody's laughed we got to carry on
But when I moved out you know that voices came along
To remind you, to tell you

Don't look away from the things we can not see
The dark is the lightest place you really wanna be
So if you get lost, try to find your way home
There're the one in your dreams keeping you from being alone
There're the one in your dreams
There're the one in your dreams
There're the one in your dreams keeping you from being alone
