

Together Forever

Donavon Frankenreiter

I got you, you got me
Let's let the world know what we can be
Take my hand, take a chance
Let's live our lives together, forever
What we have, we can't let go
It's like the sweetest sunshine i know
And I just want us to stay together forever
I can make you laugh, I can make you cry
You don't know when and i don't know why
It's been 10 years on the run
Two kids and an island in the sun
What we have we can't let go
It's like the sweetest sunshine I know
And i just want us to be together forever
And now's the time, it feels so right
But there's some things you just can't fight
I had a dream, now it's true
Only our love can see it through
What we have we can't let go
It's like the sweetest sunshine I know
I just want us to stay together forever
