

Let It Be

Dondria

I just got this feeling
This time it's gone be something different
Hope you running wit it
Cuz honestly I'd hate for you to miss it, yeah
I know I got my faults, you've got yours too
Thought I had it all when I found you

Then it came crashing
Buried in the baggage
Thought we had it figured out
You look at me different now
Guess it had to happen

I guess dreams come true
But not quite how you think they do
They don't know what we been through
Brought me back to you

Have you ever took something for granted
Cuz you thought you would always have it
I won't let it slip away, slip away
Swear I won't get in the way, in the way
I know we were meant to be, so let it be, yeah

And when it all falls down
Way way way down...
Friends turn into strangers
Guess it's just me and the maker

Sometimes you end up having it
And then losing it
Just to figure out
What to do with it
I don't have all the answers
But the trouble made me better

Cause when it came crashing
I was buried in the baggage
Thought I had it figured out
I look at me different now
Guess it had to happen, ooh

I guess dreams come true
But not quite how you think they do
They don't know what we been through
Brought me back to you

Have you ever took something for granted
Cuz you thought you would always have it
I won't let it slip away, slip away
Swear I won't get in the way, in the way
I know we were meant to be, so let it be, yeah

Oh, tell me have you ever took something for granted
Cuz you thought you would always have it
I won't let it slip away, slip away
Swear I won't get in the way, in the way

I know we were meant to be, so let it be...
