

# Do What I Gotta Do

Donell Jones

Gotta do what I gotta do  
Do what I gotta do  
'Cause cash rules everything around me

If you take a look around  
Take a look at was goin' down  
If you can see what I see, baby  
And why act the way I do  
'Cause you can't understand  
And you don't really know a man  
Until you've been where I've been  
Loose the things I've lost  
But can you change the way that you look at me

All that you can say to me  
the things I just can say no more  
I'm not the same guy that I used to be  
We don't even talk no more

Don't I get up everyday  
Don't I bring home all my pay  
Don't I do whatever it takes  
If I could just get my baby out tha ghetto

Gotta do what I gotta do  
Move when it's time to move  
See who I gotta see  
'Cause cash rules everything around me  
Do what I gotta do  
Be who I gotta be  
But it's not enough for you  
'Cause we can live without enough money

She is afraid to get involved  
She ain't willin to fall in love  
It's such a risk to take and a big mistake  
By the way I make my livin'  
But I let you know from the go  
That's the way it is  
And that's the way it goes  
It's the only life I know  
But you can't do nuthing to change that baby

All that you can say to me  
the things I just can say no more  
I'm not the same guy that I used to be  
We don't even talk no more

Don't I get up everyday  
Don't I bring home all my pay  
Don't I do whatever it takes  
If I could just get my baby out tha ghetto

Gotta do what I gotta do  
Move when it's time to move  
See who I gotta see  
'Cause cash rules everything around me

Do what I gotta do  
Be who I gotta be  
But it's not enough for you  
'Cause we can live without enough money

Gotta do what I gotta do  
Move when it's time to move  
See who I gotta see  
Cause cash rules everything around me  
Do what I gotta do  
Be who I gotta be  
But it's not enough for you  
'Cause we can live without enough money

Just try and understand me  
Look at it from my point of view  
Nuthin in this world is free  
So I do what I gotta do  
Didn't I give you, the big cars n tha big rimes  
I kept you, less then  
The finer things, baby what you think  
It was coming from stop actin dumb  
I knew you knew, but you played it off  
I play it too, like I had it all  
I was your man gave you everything  
So don't act like you don't understand

Gotta do what I gotta do  
Move when it's time to move  
See who I gotta see  
'Cause cash rules everything around me  
Do what I gotta do  
Be who I gotta be  
But it's not enough for you  
'Cause we can live without enough money
