

Don't Blame Me

Donell Jones

This a message

Uh

There comes a time in a man's life

When we gotta let go of them little boy habits

And become a man

Listen to me

Don't blame me for the things that I did when I was younger

I was only tryna be... what I thought was a man

Don't blame me for the things that I did when I was younger

I was only tryna be... what I thought was a man

Was a man

Not caring about all the things you did for me

Was a man

Or is this before my family?

Was a man

No good examples, always remember what I see

Was a man

'Cause I really thought I was being a man

There comes a time in a man's life

When we gotta wake up and see things different

I'm not the past 'cause it's dead and gone

I guess I'll do it now 'cause ain't been living

Wanna give my love to you

If you'll see you'll stick around

But you're first in my life, baby

I've been acting a fool then re-confessed my sins to you

I wanna make this thing right,

Baby don't blame me

Don't blame me for the things that I did when I was younger

I was only tryna be... what I thought was a man

Don't blame me for the things that I did when I was younger

I was only tryna be... what I thought was a man

Was a man

Not caring about all the things you did for me

Was a man

Or is this before my family?

Was a man

No good examples, always remember what I see

Was a man

'Cause I really thought I was being a man

Didn't take the lead 'cause guess I should calm down

Doing dirt with my homies, I ain't round

'Cause I realize how much that you mean to my life

When I opened up my eyes

Don't focus on the past, be open to new

This moment we can break through yea

I love you, baby

And I wanna hear you say

You forgive me and we gon be together always

Don't blame me!

Don't blame me for the things that I did when I was younger

I was only tryna be... what I thought was a man

Don't blame me for the things that I did when I was younger
I was only tryna be... what I thought was a man
Was a man
Not caring about all the things you did for me
Was a man
Or is this before my family?
Was a man
No good examples, always remember what I see
Was a man
'Cause I really thought I was being a man

I thought I... was being... a man
But I wasn't
I was playin in the streets
Do you hear me, yeah?

Don't blame me for the things that I did when I was younger
I was only tryna be... what I thought was a man
Don't blame me for the things that I did when I was younger
I was only tryna be... what I thought was a man
Was a man
Not caring about all the things you did for me
Was a man
Or is this before my family?
Was a man
No good examples, always remember what I see
Was a man
'Cause I really thought I was being a man
