

# Karma (Payback)

Donell Jones

You gotta know that it's over  
I gave all of me, my heart is empty  
You promised you would change  
You said forever you and me, huh  
Look what you've done to me

I'm torn apart  
I'm picking up the pieces you left of me, huh

How selfish could you be? (How could you do this to me?)  
I gave you the world and you still cut me deep, huh  
I forgave you when you cheated, I guess it didn't mean a thing  
No more excuses, I packed your bags, they at the door  
'Cause I'm through with you (through with you)  
Can't believe the things you put me through (oh)  
I gave you all my loving, then this what you do  
Everything you did about to come back

You gon' get this karma (karma)  
When nothing is enough (karma)  
You end up losing everything you love  
You gon' get this karma (you 'bout to), karma (you 'bout to get it)  
From every single dude (from every single dude)  
You hate it 'cause eventually you lose 'em  
You gon' get this karma, ain't no escaping that  
And everything you did is coming back

'Cause payback's a dog, payback is a dog  
Payback is a, payback is a dog  
You got to pay it back to me, payback is a dog, yeah  
Payback is a, payback is a dog  
'Cause I didn't deserve it, payback is a dog  
Payback is a, payback is a dog  
It's a dog, payback is a dog, it's a dog

Leave me alone, can't take no more  
I've awakened from sleep, no more you selling dreams (no more, no) no  
'Cause I fell in love with me  
Your kinda loving, I don't need  
Love got control of me  
Your bags is at the door

'Cause I'm through with you (through with you)  
Can't believe the things you put me through (oh)  
I gave you all my loving, then this what you do  
Everything you did about to come back

You gon' get this karma (karma)  
When nothing is enough (karma)  
You end up losing everything you love  
You gon' get this karma (you 'bout to), karma (you 'bout to get it)  
From every single dude (from every single dude)  
You hate it 'cause eventually you lose 'em  
You gon' get this karma, ain't no escaping that  
'Cause everything you did is coming back

'Cause payback's a dog, payback is a dog

Payback is a, payback is a dog  
You got to pay it back to me, payback is a dog, yeah  
Payback is a, payback is a dog  
'Cause I didn't deserve it, payback is a dog  
Payback is a, payback is a dog  
Payback is a dog, payback is a dog, it's a dog

All your lies, you think I believe 'em (I don't believe it)  
I cracked the code to get in your DMs (all up in your DMs)  
Read some messages that you seen him (that you seen him)  
You been driving my Benz to meet him (to meet him)  
But it's the big payback (payback)  
Karma gon' get you, so take that (take that)  
And never come back again

Payback's a dog, payback is a dog  
Payback is a, payback is a dog  
You got to pay it back to me, payback is a dog, yeah  
Payback is a, payback is a dog  
You know I didn't deserve it, payback is a dog  
Payback is a, payback is a dog  
It's a dog, payback is a dog, it's a dog  
But what's crazy

Is I remember when you used to hide your phone  
Payback is a, payback is a dog  
Always coming with some sad excuse  
Payback is a, payback is a dog  
Do you remember that? 'Cause I'll never forget it, no  
Payback is a, payback is a dog  
And it's the big payback and you 'bout to get it
