

Lust Or Love

Donell Jones

There is something between us
Whenever we hook up it comes up out
I go through different emotions
And I can't quite figure it out
If I just fight it
And we get down
Or have I fallen
For you in the mist of it all

I don't know if it's lust or love
That I'm feeling for you
Hope you're feeling it too
I don't know but I hope it's love
That I'm feeling for you girl

Baby I'm ready
To settle down
Have I been running
From love and it's catching up now?

I've got love on my mind it's what I feel deep inside
As I look in your eyes I see that the lust has turn to love
This is the night we can make this thing right
Girl I need you in my life 'cause you've got to know that this
could be love
