

# The Finer Things In Life

Donell Jones

Hey yo D  
Let's take it back  
Let's take it back

Baby girl I wanna make a toast to new beginnings  
(You plus me) equal a winning combination  
Them other dudes before me never knew what they were doin'  
(Frontin' like that) they making moves and I'm just saying

They never stepped up  
To give you the best of everything like you deserve ooh girl  
Their loss is my gain  
They never felt your pain cause they don't know a woman's worth  
Like I do

So many disappointments  
You've had it hard finding someone who  
Knows how to treat you right  
All those heartaches are over  
Now that I'm here I'm gonna show you  
The finer things in life (Let's take it back)

Girl I'm talking 'bout vacations on private islands (personal)  
Chefs provided... how you like that?  
And your shopping game is gonna be on full display on, Roberson  
And Rodeo, then we're to the crib for a nightcap

They never stepped up  
To give you the best of anything like you deserve ooh girl  
Their loss is my gain  
They never felt your pain cause they don't know what a woman is worth ooh  
Like I do

So many disappointments  
You've had it hard finding someone who  
Knows how to treat you right  
All those heartaches are over  
Now that I'm here I'm gonna show you  
The finer things in life (Let's take it back)

You know what baby  
They never stepped up  
To go the extra mile to make you feel love and wanted  
Like a woman must feel  
Their loss is my gain  
See with D it ain't the same old same  
I'm gonna show you the finer things ooh

So many disappointments  
You've had it hard finding someone who  
Knows how to treat you right  
All those heartaches are over  
Now that I'm here I'm gonna show you  
The finer things in life

So many disappointments  
You've had it hard finding someone new

Knows how to treat you right  
(The cryin' is over baby)  
All those heartaches are over  
Now that I'm here I'm gonna show you  
The finer things in life (Let's take it back)
