

And when the ground is shaking
Than you can let it all fall apart
As long as you're beside me
Than baby nothing can stop my heart

Don't need to be my hero
Cause you're already my best someone
Don't save me from tomorrow
Just be there when all is said and done
And when the sky is falling
Than you can let it come crashing down
As long as you're beside me
Than we'll be nothing we can't take on

And when the ground is shaking
Than you can let it all fall apart
As long as you're beside me
Than baby nothing can stop my heart

And when the ground is shaking
Than you can let it all fall apart
As long as you're beside me
Than baby nothing can stop my heart

Don't need to be my answer
Cause it's the mystery that I love
Don't take the path for granted
Cause it's the challenge that lifts us up
And when the sky is falling
Than you can let it come crashing down
As long as you're beside me
There'll be no reason for us to fear
Ooh
Ooh
Ooh

And when the ground is shaking
Than you can let it all fall apart
As long as you're beside me
Than baby nothing can stop my heart

And when the ground is shaking
Than you can let it all fall apart
As long as you're beside me
Than baby nothing can stop my heart

Nothing can stop me
Nothing can stop my heart
Nothing can stop me
Nothing can stop my heart
Nothing can stop me
Nothing can stop my
Nothing can stop my heart
As long as you're beside me
Than baby nothing can stop my heart
