

Kaleidoscope

Donkeyboy

My vision's hazy wake me up
God I miss the best part, take me back to the start
We came together then we fell apart
And you got that kinda touch that I should never give up

Give me a way out
Show me where I can go

It's all the colors of your body
This memory will never let you go
I thought I know you let my heart break
I just wanted you to know
You're my kaleidoscope
You're my kaleidoscope
You're my kaleidoscope

Our love is fading
Out of touch
You know the sun is setting but the colors erupt
I'm going crazy, shake me up
So these broken pieces coming out of my heart

You're my kaleidoscope
Yeah, you are
You're my kaleidoscope
We should go out
We should go out, go love
You're my kaleidoscope

It's all the colors of your body
This memory will never let you go
I thought I know you let my heart break
I just wanted you to know
You're my kaleidoscope
You're my kaleidoscope
You're my kaleidoscope

We should go out
We should go out
We should go out
You're my kaleidoscope
We should go out
We should go out
We should go out
You're my kaleidoscope
