

I'm gettin' older now  
Even though I feel the same  
The system's working out  
There's no one I can blame  
I'm gettin' older now  
Tell me that it's not too late  
The final chance is gone  
In vane

Stay now  
Everybody knows that you can't save me  
But time is all we have  
Stay now  
Everybody knows the path but maybe  
This song is all we have

You're gettin' older now  
I can only sleep when you're sane  
The system's wearing out  
There's no one I can blame  
You're gettin' older now  
Tell me that it's not too late  
The final chance is gone  
In vane

Stay now  
Everybody knows that you can't save me  
But time is all we have  
Stay now  
Everybody knows the path but maybe  
This song is all we have

I'm gettin' older now (I'm gettin' older now)  
The system's working out (The system's working out)  
I'm gettin' older now (I'm gettin' older now)  
The final chance is gone  
Tell me that it's not too late

Stay now  
Everybody knows that you can't save me  
But time is all we have  
Stay now  
Everybody knows the path but maybe  
This song is all we have

I'm gettin' older now (I'm gettin' older now)  
The system's working out  
Tell me that it's not too late
