

Headlights

Donna Lewis

Here comes the water
No no
Knee deep in water
No no
The shock of the water
Pulls me
I see

Headlights and I don't care
Lay me down
And leave me there
Let the flames warm all of me
Headlights and I don't care
Lay me down
And leave me there
Swimming almost vertically

Under the water
When the shaking stops
Deep in the water
Reaching out
I dream that I'm walking
To the glass house
I see

Headlights and I don't care
Lay me down
And leave me there
Let the flames warm all of me
Headlights and I don't care
Lay me down
And leave me there
Swimming almost vertically

Wrap yourself around me now
Wrap yourself around me now
Wrap yourself around me now
Wrap yourself

Something that won't last
Something that won't last
I see

Headlights and I don't care
Lay me down
And leave me there
Let the flames warm all of me
Headlights and I don't care
Lay me down
And leave me there
Swimming almost vertically

Headlights and I don't care
And leave me there
Let the flames warm all of me

I have been given something

Leave me there
Swimming almost vertically
Headlights and I don't care
Leave me there
Swimming almost vertically
