

Driving

Donna Missal

Day and night
Your love is like a Quaalude
Keep me locked in tied tight, tight
I'm sinking in your bedroom

I can't help this
Distance between us is bringing us closer
I know I'm fighting this

Sun on my hands and the wind in my hair
Never be back, I don't care
I wanna go driving, just wanna go driving
I had a dream far away, far away
Woke and I need to go find it
I wanna go driving, just wanna go driving

Night and day
I'm speeding on the highway, mhm
Skyline, won't nothing stand in my way

I can't help this feeling
I'm losing myself to the same shit
I know I'm fighting this

Sun on my hands and the wind in my hair
Never be back, I don't care
I wanna go driving, just wanna go driving
I had a dream far away, far away
Woke and I need to go find it
I wanna go driving, just wanna go driving

(Wanna go driving, wanna go)
(Wanna go driving, wanna go)
(Wanna go driving, oh)
(Wanna go driving, oh)

When you rev rev, I go go
I'm diving in my roll roll
I'm letting down my window driving

When you rev rev, I go go
I'm pulling up my window
I'm revving up my roll roll driving

With the sun on my hands and the wind in my hair
Never be back, I don't care
I wanna go driving, just wanna go driving
I had a dream far away, far away
Woke and I need to go find it
I wanna go driving, just wanna go driving
