

God Complex

Donna Missal

Complex
God complex
How I feel
When you get me like this
Pride, bliss
Weaponized kiss
How you look
In any context
Course

Why you don't carry me close
Why you won't love me the most
When I gave you all that you wanted
And you feel a hand in your pocket
Like the sun of my garden

What I see
When you're standing in the shimmer
Just your obsession
With keeping me
Inferior

Frame it in denial
Say it with a smile
I don't want to host
Ego grandiose
Frame it in denial
Say it with a smile
I don't want to host
Ego grandiose

Tight fist
Loosening lips
How I feel
When you get me like this
Blind rage
Rattling cage
Biting hand that's gripping my face
Force

Why you don't carry me close
Why you won't love me the most
When I gave you all that you wanted
And you feel a hand in your pocket
Like the sun of my garden

What I see
When you're standing in the shimmer
Just your obsession
With keeping me
Inferior

Frame it in denial
Say it with a smile
I don't want to host
Ego grandiose
Frame it in denial

Say it with a smile
I don't want to host
Ego grandiose

Frame it in denial
Say it with a smile
