Donna Missal

Our love is for real  
How'd it take a long long time  
To let us feel  
I try to relate in my state  
But the aura around me says  
Our love is for real

Baby baby baby  
I been waiting for ya  
Wanna be in love  
Baby baby baby  
I been waiting waiting waiting  
My whole life for someone like you

Touching your face  
How'd it take a long long time  
To be here  
Turning the wheel  
On our street  
And my heart still skips a beat  
It's echoing echoing echoing

Baby baby baby  
I been waiting for ya  
Wanna be in love  
Baby baby baby  
I been waiting waiting waiting  
My whole life for someone like you

It's true that everyone would like to have met  
A love so real  
Our love is for real

I know it  
I've known it so long now  
I'm nervous but  
Into it  
Inviting  
I'll be there

Baby baby baby  
I been waiting for ya  
Wanna be in love  
Baby baby baby  
I been waiting waiting waiting  
My whole life for someone like you  
It's true that everyone would like to have met  
A love so real  
Our love is for real
