

# Just Like You

Donna Missal

Sit in the silence, so deafening  
When you don't reply  
Now you're voice is in my head ringing  
Only amplifies  
How you act like you don't care  
How I feel from over here  
The space has grown into a great divide  
Too far to clear the air

And we never will, never will, never will, never will

I wanna be just like you  
2 fingers up just like you  
If I could lose my conscience  
Get what I want, no consequence  
Nobody wins but I still lose  
That's what I get for loving you  
And if I could deny it  
Then I could be just like you

You flip a switch and then you turn your back  
Like you're so detached  
Its gonna get you when you least expect  
Good fucking luck with that  
When you act like you don't care  
Hide behind your cold, blank stare  
You're in denial and it's just so sad  
When you fake a laugh

So how does it feel how's it feel? How's it feel? How's it feel? How's it feel?

I wanna be just like you  
2 fingers up just like you  
If I could lose my conscience  
Get what I want, no consequence  
Nobody wins but I still lose  
That's what I get for loving you  
And if I could deny it  
Then I could be just like you

Just like you

Go on, pretend  
What else is new  
That's what I get for loving you  
And if I could deny it  
Then I could be just like you

Just like you  
I wanna be just like you
