

# Keep Lying

Donna Missal

Keep lying, keep lying to me  
Just keep lying, keep lying to me  
Don't go fucking with my fantasy  
Keep lying to me

Feed me your fiction  
Give me just one taste  
To sustain this addiction  
Blissful affliction  
I'll swallow your poison  
Till it runs through my veins  
Fills my heart with deception  
Twist my perception

Baby, I've known lonely  
So let me down now slowly  
You know me  
Tell me I'm your only  
Even if it hurts

Keep lying, keep lying to me  
Just keep lying, keep lying to me  
Don't go fucking with my fantasy  
Keep lying to me

Tell me a story  
Let's make believe  
If you're lying I'll listen  
So say it through your teeth  
Make me a prison  
And throw away the key  
'Cause I know what I'm missing  
It's better than nothing

Baby, I've known lonely  
So let me down now slowly  
You know me  
Tell me I'm your only  
Tell me I'm your only, whoa oh

Baby, I've known lonely, yeah  
Let me down now slowly  
You owe me  
Tell me I'm your only  
Even if it hurts

Keep lying, keep lying to me  
Just keep lying, keep lying to me  
Don't go fucking with my fantasy  
Keep lying to me

Keep lying, keep lying to me  
Just keep lying, keep lying to me  
Don't go fucking with my fantasy, yeah  
Keep lying to me

'Cause baby, I've known lonely, yeah

Let me down now slowly  
And tell me I'm your only  
Even if it hurts
