

Move Me

Donna Missal

Hearts alive in the house tonight
All this fate and all this fire
Holding space for a holy light
(Given I'll stay for my baby)
All this space and all this time
(This is so us right now)

Fall
Run
In your arms

Feel my love for you
Fill my body
Like a vision in the dark
Ever-growing
In this place with you
You're a vision in the dark
Ooh, how you move me, how you move me
Ooh, how you move me, how you move me

So in bloom when I reach for you
Hands right here inside this room
Breathing deep when you take me in
(Given I'll stay for my baby)
No end to where you begin
(This is so much right now)

Fall
Run
In your arms

Feel my love for you
Fill my body
Like a vision in the dark
Ever-growing
In this place with you
You're a vision in the dark
Ooh, how you move me, how you move me
Ooh, how you move me, how you move me

How you move me, how you move me
