

Sick

Donna Missal

Where have you been all this time?
All this time
I could die in your arms tonight
Your arms
Just kill me a little bit
Tighten your grip 'round my neck
Show me the after life
Like drowning in paradise
It feels like real love

You go to my head
Hypnotize me with your sick magic
You go to my head
Under my skin like a pin prick

You go to
You
You go to
You

Let me in the nuclear zone
I'm only flesh and bone
No human remains
Nobody left to save
No me without you
Only pain without you
I'm on my hands and knees
Calling, calling out your name
Searching for a real love

You go to my head
Hypnotize me with your sick magic
You go to my head
Under my skin like a pin prick

Twist my religion, you're all I breathe in
I'm on my hands and knees
Calling, calling out your name
So, give me your blessin'
With this last confession
I'm coming clean without ya
There's no me without you
You

You go to my head
Hypnotize me with your sick magic
You go to my head
Under my skin like a pin prick

You go to
You
You go to
You
