

# Slow Motion

Donna Missal

This is the last  
Conversation we'll have  
Even if the past  
Passes judgement on us  
And we're tied to the mass  
When the ships going down  
Promise me that  
You'll take care of yourself

'Cause slow motion  
Is a cold ocean

I won't head down that road  
So I loosen up my hold  
I hang on way too long  
So this time I'll get gone  
Maybe someday I'll see you  
I'll want to reach out but I won't  
They say if you love something  
Let it go

Tugging on the rope  
Let the tension release  
Lay down the load  
That's been weighing on me  
And burning you up inside  
At a thousand degrees  
Fire in the room  
I hope it sets you free

Lost moments  
In slow motion

I won't head down that road  
So I loosen up my hold  
I hang on way too long  
So this time I'll get gone  
Maybe someday I'll see you  
I'll want to reach out but I won't  
They say if you love something  
Let it go

Oh, in slow motion  
Let it go in  
Slow motion  
Let it go in  
Slow motion

I won't head down that road  
So I loosen up my hold  
I hang on way too long  
So this time I'll get gone  
Maybe someday I'll see you  
I'll want to reach out but I won't  
They say if you love something  
Let it go  
They say if you love something

Let it go
