

# This Time

Donna Missal

Say hi to them  
Give them my best  
You have the rest, you know it  
Left it all up to me, so I...  
Dress to impress  
Seeking and hiding  
You found and you know it  
I had to stay

Use my space and take two places  
This time you wanna drive

Walking on eggshells  
Count my blessings  
It's harder than you notice  
Looking up  
Every time I paint  
It washes out  
Before I see the end

Cover my face and take me places  
This time, I wanna drive  
Burn my eyes and turn to ashes  
You, you saved my life

Now we're walking back  
And we're walking back  
And we're walking back  
And we're running back

Change my name and leave these places  
This time, I'm not fooling around

This time  
This time  
This time  
This time
