

# When Love Cries

Donna Summer

Baby you  
Turned my world into something new  
Nights are long when you're far away  
Hunger for you every night and day  
Whisper softly to the wind  
Need you back in my arms again  
Passion calls from deep inside  
It only happens when my love cries

You make my heart sing (3x)  
When love cries  
You make my heart sing (3x)  
When love cries...love cries...love cries

And when I am blue  
Close my eyes and dream of you  
Silent echoes scream out your name  
You're the keeper of my flame  
I'll survive on desire  
'til I'm closer to your burning fire  
Ride a star across the sky  
I need you here when my love cries

You make my heart sing (3x)  
When love cries  
You make my heart sing (3x)  
When love cries...love cries  
You make my hear sing (6x)  
When love cries

Ooh baby  
To be near you  
Just to feel you

Baby, baby  
Baby, baby  
You do it to me...do it to me  
Baby, baby  
Baby, baby  
You do it to me...

In my heart  
I never felt it quite like this before  
And if I let it slip  
I might not hear it anymore  
I look into your eyes...ooh  
And I get a chill  
I hear your name  
My world comes to a stand-still

The keeper of your flame  
I wanna be  
Two hearts together  
'til eternity  
Hand in hand  
Side by side  
Stride by stride

We'll be the one who hear  
When love cries

You make my heart sing
