

# Never Did I

Donnie Iris

I don't know  
How you got to me  
All I know is what I feel  
If I open my heart to you  
Will I be left here to bleed

But I know you're not the  
Kind to leave me hanging  
So I'm asking for your personal advice  
Show me the way  
Into your heart  
Help me to say  
What I'm feeling  
I just can't wait no more

Never did I  
Say I love ya  
Never did I  
Tell ya I been blue  
Never did I  
Say I want ya  
Never did I  
Baby but I do

I was afraid to reach out for you  
Turning my back on romance  
Maybe you care  
Maybe you don't  
It may be time we took the chance

Girl you only have to look into the mirror  
To see the one I'm crazy for  
Show me the way  
Into your heart  
Happy to say  
What I'm feeling  
I just can't wait no more

Never did I  
Say I love ya  
Never did I  
Tell ya I been blue  
Never did I  
Say I want ya  
Never did I  
Baby but I do

I never felt this way before  
But that's all right  
If this is love I need some more  
So please be mine  
Tonight

Never did I  
Say I love ya  
Never did I  
Tell ya I been blue

Never did I  
Say I want ya  
Never did I  
Baby but I do
