

# Temptation

Donnie Iris

I was alone in this town now  
She was a face in the crowd now  
I know that you're my girl  
And you're waiting for me  
And I'll always be true  
You know what I mean

But there's temptation  
Temptation  
Strong enough  
Strong enough to take me  
And only your love can save me  
And rescue me

Yeah you gotta understand baby  
She's a woman and I'm a man baby  
If she came up to me and asked me to dance  
Yeah if it wasn't for you I might take a chance  
Whoa

Temptation  
Temptation  
Strong enough  
Strong enough to take me  
And only your love can save me  
And rescue me

Stop this temptation  
Temptation  
Long enough  
Long enough to scare me  
And only your love can spare me  
Deliver me

What I got  
Baby I got it for you yeah  
What I want  
Baby I want it from you  
Tonight tonight yeah

Temptation  
Strong enough  
Strong enough to take me  
And only your love can save me  
And rescue me

From this temptation  
Long enough  
Long enough to scare me  
Only your love can spare me  
Deliver me
