

The First Love

Donnie Iris

Hey soldier
Take a look at this
Buried in your future
Is a box like this
Better follow your heart

'Cause then the bones are clean
And the music's picked
Only the dance is timeless
That's all there is

And I no longer have an ideology
And I no longer have a theology

I dance with my first love
It's the only thing I still believe
Oh, my first love is the best love
It's the only love I'll ever need

You got to dance with
What brang you son
You got to sing your own song
And don't you know
You can never get enough of
What you don't really want

So jungle up to the mountain
Where your fire burns
But just remember
Life will never teach you
What can only be learned

Let's dance
Come on first love
It's the only love I'll ever need
It's music
Sweet music
My first love
It's the best
It's the only love I'll ever need

No one knows what's behind God's door
We're all casualties in this Holy War
Accidents of space and time
Victims of cosmic crime
But sometimes a man or woman soars above
They're the heroes
They fly like doves
Show us what we can become
Be what you are
Do what you love

The first love
Is the best love
(It's the only love)
Yeah
(I'll ever need)

I'll ever need
I'll ever need
First love
Is the best love
It's the only love
I'll ever need
