

Within Me + Without You

Donnie Iris

I heard the news that
You were leaving
Out to find your bliss
I should be shocked
I should be grieving
Shaking like a fish

But I don't miss you
Don't need to fix you
Don't want to read your letter
I will forget you
Forget I met you
You know I think it's getting better

I woke up today
Without crying
First time in weeks
I had some breakfast
Though it was simple
A slice of toast and tea

I went to Kensington
Do you remember when
We used to shop on Sundays?
It didn't feel right
At first without you
But it will be one day

Because within me and without you
I will find a way
To get used to
Life without you
I will find a way

Here come the rhythm ants
I hear them marching
Marching for my bed
They think they'll find you
They always used to
But they'll find me instead

Try on a new heart
I need some new chains
I'm feeling so unfettered
I sometimes scream things
But I don't need to
I'm doing so much better

Because within me and without you
I have found a way
To get used to life without you
I have found a way

I went to Camden town
Do you remember when
We used to walk on Sundays?
It didn't feel right

Sunday without you
But soon it will be Monday

And within me and without you
I will find my way
I'll get used to life without you
I will find my way
Yes within me and without you
I will find my way
Must get used to life without you
I will find my way

Within me and without you
Within me and without you
