

## Naturally Somehow

Donnie Trumpet & The Social Experiment

Walking into the wind  
Leaning in  
Put my weight behind me

That's just rain in my eye  
Getting pushed around  
(I'm getting tired)  
But there's no meaning  
With no movement

My hands get  
The worst of it  
Holding on  
For so long

Can't always stop the bleeding  
You can only lean in

The leaves all made their peace  
Knowing the worst will soon blow over

Floating on the ground  
Somehow they don't feel down

Holding up the crown  
It keeps weighing me down  
Somehow it feels patient and calm  
Floating on the ground  
Somehow they don't feel down

Moving around  
Float in the breeze  
Offering of peace  
Give it a while  
Give it some time  
Letting it breathe

All from the heart  
A sigh of relief  
There's nothing to see  
I feel relieved  
Feels like I'm free
