

Let's All Dance

Donny Osmond

If you're feeling good let's light this up together
And let the music make you move, it's now or never

Left foot, right foot, magic [?]
Let your body do what it wants to do

So don't you wait another day
It's only just a beat away
Get up on your feet
Get up on your feet
Get up on your feet

Let's all dance tonight
You and me together
Let's all dance tonight
We'll go on forever

Well if you're feeling like this crew is gonna get you

Get up on your feet
Get up on your feet
Get up on your feet

Let's all dance tonight
You and me together
Let's all dance tonight
We'll go on forever
Let's all dance tonight
You and me together
Let's all dance tonight
We'll go on forever

Get up on your feet
Get up on your feet
Get up on your feet
Get up on your feet
Get up on your feet
Get up on your feet

Let's all dance tonight
You and me together
Let's all dance tonight
We'll go on forever
Let's all dance tonight
You and me together
Let's all dance tonight
We'll go on forever
