

# Life Is Just What You Make It

Donny Osmond

Baby, I've been thinkin' and I've finally made up my mind.  
Baby, I've been lookin' and you know there's one thing that I find.

That life is just what you make it, life is just what you want it to be.  
Life, don't think I can take it unless you could spend it with me.

Baby, since I met you, I just can't get you out of my mind.  
Lately, if I'm not with you, I feel like I'm wasting my time.

'Cause life is just what you make it, life is just what you want it to be.  
Life, don't think I can take it unless you could spend it with me.

Walkin' in the noonday sunshine, together we will pass the time  
.  
Sittin' 'neath the moon just dreamin', with you, girl, just us two girl.  
Oh yeah.... oh yeah.....

With you, girl, just us two girl.  
I'm no fool, girl.

'Cause life is just what you make it, life is just what you want it to be.  
Life, don't think I can take it unless you could spend it with me.  
Oh, life is just what you make it, life is just what you want it to be.  
Life, don't think I can take it unless you could spend it with me.
