

Control

Donots

It takes a heart to forgive
Takes a soul to forget
Takes up all of your time
You're going nowhere fast
Gotta get over yourself
And bury the dead
Now if you make a guess
You know your luck won't last
You find that lies don't lie
And the past won't rest
Makes you get down on your knees
And say: Off with the head
You gotta throw it away
It's getting out of control
It's got you spinning around
Turns you upside down
Takes your final breath
Before you sink and drown
It's only in your mind but
It makes you wanna lose your head
You wanna throw it away
