

# It's Been Like That For A While

Donovan Woods

On the Peace Bridge in a Kia Soul  
Telling me all the facts on black holes  
Most of which I already know  
I could hang myself with your purse

Leaving Buffalo with a cold sore  
I see no evidence they won the war  
Now you're dancing out of a liquor store  
The best looking girl at my old work

I don't want to go to Canada right now

And the border was hostile  
I'd say it's been like that for a while  
I said I liked your new hairstyle  
You said it's been like that for a while

I am only loyal to an airline  
So I'll fly it out to the Maritimes  
Well, I'm just kinda like this folk guy  
In one of those round hats

And we see a red fox and a herd of deer  
And then it's, oh my god, I could live here  
Which is understandable and sincere  
For a bunch of idle chat

I don't want to go to Canada in this tax year

And the border was hostile  
I said it's been like that for a while  
I said I liked your new hairstyle  
You said it's been like that for a while

And the border is just one long line  
But we held our polite smiles  
You said you don't notice my hairline  
I said it's been like that for a while

Yeah, it's been like that for a while

Yeah, it's been like that for a while
