

On The Nights You Stay Home

Donovan Woods

On the nights you stay home
I don't even go downtown
So don't worry about it
Don't know what I'm doing now
And on the nights you stay home
I don't run into your friends
At a party in Parkdale
At a bar in the East end

Come on girl, get your head up right
Come on girl, you can lose sleep tonight
I won't tell you about something that happened
I won't tell you about anything that happens tonight

Girl, get your head up right
Come on girl, tell me some other time
I know you wonder if I sleep alone
On the nights you stay

And on the nights you stay home
I don't even look at my phone
You need time alone
Me, I guess I don't
And on the nights you stay home
Nobody says your name
Nobody talks about you
Everything's exactly the same

Come on girl, get your head up right
Come on girl, you can lose sleep tonight
I won't tell you about something that happened
I won't tell you about anything that happens tonight

Girl, get your head up right
Come on girl, tell me some other time
I know you wonder if I sleep alone
On the nights you stay
On the nights you stay

Come on girl, get your head up right
Come on girl, you can lose sleep tonight
I won't tell you about something that happened
I won't tell you about anything that happens tonight
Girl, get your head up right
Come on girl, tell me some other time
I know you wonder if I sleep alone
On the nights you stay
On the nights you stay home
On the nights you stay
