

The Coldest State

Donovan Woods

I was in the coldest state, love
I was in the coldest state, love
I was in the coldest state, love
I was in love once
Believe me you can be, love
I was in the coldest state of love
Nobody knows why
Faith in the old style
I was in the coldest state
And I was in the coldest state and
I believe the race is run
I believe my only one is
Sleeping in the midday sun is what's
Right, right, right
I know what's good for me
Don't sleep in on the apathy, don't
Tell em all to wait and see it's
Right, right

I was in the coldest state, love
I was in the coldest state, love
I was in love once
Believe me you can be, love
I was in the coldest state of love
Nobody knows why
Faith in the old style
I was in the coldest state
And I was in the coldest state and
I believe the race is run
I believe my only one is
Sleeping in the midday sun is what's
Right, right, right
I know what's good for me
Don't sleep in on the apathy, don't
Tell em all to wait and see it's
Right, right

I was in the coldest state, love
I was in the coldest state, love
I was in the coldest state, love
I was in the coldest state
