

## Down by the Harbour

Donovan

Down by the harbour I will be waiting  
Thinking of you love so far away  
Down by the harbour, seagulls are calling  
It's only the lonely song of the sea

I'm just like the ocean  
I'm always in motion  
Sailing back home to you  
Soon to be safe in the haven of your heart

Down by the harbour, lovers are kissing  
Deep in the shadows under the pier  
Down by the harbour, you I'll be missing  
Thinking of you love, holding you near

Sadly the twilight  
Lonely the love light  
Venus and Jupiter rise  
Soon to be safe in the haven of your eyes

Lovers are longing, singers are singing  
Dreamers are dreaming dreams  
Yet I am lonely only for you dear  
Only for you it seems

I'm just like the ocean  
I'm always in motion  
Sailing back home to you  
Soon to be safe in the haven  
Soon to be safe in the haven of your  
Soon to be safe in the haven of your heart

By the harbour, down by the harbour  
Down by the harbour  
Down by the harbour  
Down by the harbour  
Down by the harbour  
Down by the harbour...
