

## Island of Circles

Donovan

Over the mountain  
Over the sea  
From the island of circles  
My love calls to me

Her hair in the north wind  
Brown berry eyes  
Reading the birdrooms  
In the winter sky

She sway like the willow  
Clothed all in stars  
Moon drops of silver  
Fire gold from Mars

Over the mountain  
Over the sea  
From the island of circles  
My love calls to me

Her hair in the north wind  
Brown berry eyes  
Reading the birdrooms  
In the winter sky  
In the winter sky
