

Rock Me

Donovan

We don't walk away
With everything we want
We ask ourselves in time of trouble
Who's the fool in this play
If you've got it don't flaunt
I want to know if you're my girl, though

Cause I know I only know
I know I only know
I love the way you rock me
You rock me to my soul
Come rock me, rock me roll me
I love the way you rock me

You've got a way about you
There's no doubt about you
In the crowd you're never too loud
You're my heroine
All the places we've been

Cause I know I only know
I know I only know
I love the way you rock me
You rock me to my soul
Come rock me, rock me roll me
I love the way you rock me
I love the way you rock me
Come rock me to my soul
Come rock me, rock me roll me
I love the way you rock me

I know I only know
I know I only know
I love the way you rock me
You rock me to my soul
Come rock me, rock me roll me
I love the way you rock me
I love the way you rock me
You rock me to my soul
Come rock me, rock me roll me
I love the way you rock me

Rock me, rock me
Rock me, roll me

Cause I love the way you rock me
You rock me to my soul
Come rock me, rock me roll me
I love the way you rock me

Rock me, rock me

I love the way you rock me
You rock me to my soul
Come rock me, rock me roll me
I love the way you rock me

Rock me, rock me
