

Save the World

Donovan

Save the world

Before too long let's save the world
It's not too late to save the world
Some may say it's just a dream
Love is never what it seem

I won't get over losing you
Forest green and ocean blue
So let's all see if we can be
Civilised and free

Before too long let's save the world
It's not too late to save the world
They may say it's just a dream
Hate is never what it seem

Whatever your faith may sing
Allah be praised or Christ be king
Jehova, Krishna, Chairman, Mao
Buddah, begin it now

It's up to you
Save the world
It's up to you
Save the world

Before too long let's save the world
It's not too late to save the world
You can say it's just a dream
Greed is never what it seem

All the battles lost and won
Beneath the shining moon and sun
We ache to see over the world
The flag of peace unfurled

It's up to you to save the world
It's not too late to save the world
I call on every boy and girl
Awaken to the inner world

We are all one beneath the skin
Ignorance is the only sin
Take the knowledge and the power
Be bold, this is the hour

It's up to you to save the world
It's up to you
Save the world
It's up to you
Save the world
