

The Harmonica Girl

Donovan

Met a girl in Santa Monica
She played the harmonica
I dream her into my life
maybe make her my wife

I thought about her all night long
And when the DJ played that song
On KCRW it made me feel so blue

Next day I went to find her
Have you seen the girl with red hair
No we ain't seen her anywhere
Then I saw her by Casa Del Mar

I thought about her all night long
And when the DJ played that song
On KCRW it made me feel so blue

I followed her onto the beach
I thought she was out of reach
She turned and she did say
I hoped you'd be back today

I thought about you all night long
When the DJ played that song
On KCRW it made me think of you
I thought about you all night long
When the DJ played that song
On KCRW
it made me think of you

I thought about you all night long
And when the DJ played that song
On KCRW it made me think of you

Got hitched in Santa Monica
she played the harmonica
Two kids one with red hair
and the other like me is fair

On the beach all summer long
When the DJ plays our song
On KCRW
Oh the sky is blue
I thought about you all night long
And when the DJ played that song
On KCRW, it made me think of you
