

Don't Say Goodbye

The Doobie Brothers

This reminds me of those things we used to do
As that guy says pour another round
And this crazy love has got a mind of its own
I knew eventually I'd find you in this town

And your eyes always tell what your lips they can't say
Remember those nights down in old San Jose

Baby I know, you don't have to say any more
We can do anything you want tonight
As long as we don't say goodbye

On the balcony that overlooks the pool
We watched the carnival unfolding far below
I thought I saw someone waiting underneath the mango tree
It looked just like that guy you used to know

And your eyes always tell what your lips they can't say
Remember those nights down in old San Jose

Baby I know, you don't have to say any more
We can do anything you want tonight
As long as we don't say goodbye
