## **Don't Say Goodbye**

## The Doobie Brothers

This reminds me of those things we used to do As that guy says pour another round And this crazy love has got a mind of its own I knew eventually I'd find you in this town

And your eyes always tell what your lips they can't say Remember those nights down in old San Jose

Baby I know, you don't have to say any more We can do anything you want tonight As long as we don't say goodbye

On the balcony that overlooks the pool We watched the carnival unfolding far below I thought I saw someone waiting underneath the mango tree It looked just like that guy you used to know

And your eyes always tell what your lips they can't say Remember those nights down in old San Jose

Baby I know, you don't have to say any more We can do anything you want tonight As long as we don't say goodbye
