

## Easy

## The Doobie Brothers

I've been runnin' all my days  
Couldn't get out of my own way  
But I learned my lesson and I've felt the pain  
The scars I have will finally fade

When ya took a chance on me  
You made it easy, easy  
I can breathe now finally  
'Cause you make it easy, easy

Lookin for answers in an empty well  
When there's no-one to blame, you only blame yourself  
I told ya baby and I told myself  
Ya brought me higher like no one else

When ya took a chance on me  
And ya made it easy, easy  
I can breathe now finally  
'Cause you make it easy, easy

Days will come and days will go  
But you're the one that I needed so  
It's like a flash of lightning, ya help me see  
A rolling thunder now I believe

Went to the river, it's callin' to me  
I hear your echo on the evening breeze  
I wanna thank you, you set me free  
You made a better man outta me

When you took a chance on me  
Ya made it easy, easy  
I can breathe now finally  
'Cause you make it easy, easy

Help me please  
I beg ya, baby  
Easy  
I tell ya, darling  
All I need  
Well, I need it  
You make it easy  
Can ya feel me talkin' to ya?  
Can ya hear me sing out loud?  
You make it easy
