

# Wherever We Go

The Doobie Brothers

Seems I'm always running just to get somewhere  
Movin' so fast without a care  
Lookin for an answer  
That's never there

Chasing something crazy that I just don't need  
Held me back from being who I used to be  
All the reasons why  
I forget to breathe

Oh, I've been waiting, oh, so long  
To get me back where I belong

I wanna feel the sunshine on my skin  
I wanna feel the summers love again  
Riding on this wave that we take together  
Summer days with you are gonna last forever  
Never in a hurry, yeah, we'll take it slow  
We got the sun inside  
Wherever we go

All the little things that I held onto  
Keeps reminding me its time to let it go  
Roll down the window, there's a warm breeze blowin'  
Takes me to the island that I call my home

Oh, I've been waiting, oh, so long  
To get us back where we belong

I wanna feel the sunshine on my skin  
I wanna feel the summers love again  
Riding on this wave that we take together  
Summer days with you are gonna last forever  
Never in a hurry, yeah, we'll take it slow  
We got the sun inside  
Wherever we go

Oh, I've been waiting, oh, so long  
To get us back where we belong

I wanna feel the sunshine on my skin  
I wanna feel the summers love again  
Riding on this wave that we take together  
Summer days with you are gonna last forever  
Never in a hurry, yeah, we'll take it slow  
We got the sun inside  
Wherever we go
