

I'm an extraterrestrial
I was born on a planet of infested pools
And we infected fools
With galactic tools
And anyone who wanna clash
Get slashed in two
I'm a
Starking I surpass you
See the devil in my eyes
When I burn whack crews
I'm a rebel in disguise
I'm the life and death gatekeeper
Died in the future
But now they call me Jayreaper
A quantum leaper
I switch through dimensions
And I'm invincible unless you use the right sentence
I might mention
That I'm a humenoid insectoid
You'll see my true face if you trippin' on some X boy
So get sharp get ready / its about to get heavy when I kick nig
gas harder than Jet Li
You hartless and empty
I'm bursting with lust
Combust and turn the whole universe to dust

In this day and age, mindless get a taste
Why it is they are placed in a thick layered cake
Live in a lake, I constrict like a snake
Stray in my way, I will deathroll twist of ya leg
(you can) cry bitch and beg all you want to
Tripods stomp you, when my squad comes through
I belong to a race from space
The royal get flushed when I pull out the ace of spades
It takes place in your own back yard
That's why the superstitious dont act hard
Cause the blackheart demon, will change your percepcion
Your ass starts bleeding when it slay's your reflection
Many corporations hunt me
I'm a bio weapon thats captured by weyland Yutani
Invasion of the body snatchers, dont sleep!
Those that we are running after...won't leave!!!
